REASON FOR GIVING THIS CASE.

In selecting the case of Mrs. Lizzie M. McCurdy who was carried to Drs. Copeland and Gardner nopeless invalid, indeed so feeble and weak that office by her daughter and her cousin, we are no in any degree appealing to the credulity of news paper readers; we are simply giving the exact words, the truthful and easily verified experience of the patient, and we produce it, not to represen Copeland and Gardner as miracle and again in these columns, that such condition are not hopeless, that they may be cared.

It is reason enough, if any reason need be given for the publication of such an experience, that there are thousands of people to day in New York whose relatives and friends feel that they are perfect health and strength. This is no idle state pent: It is the simple truth.

This narrative of Mrs. McCurdy s is no more re markable than that given last week by Mr. Will iam Kidney, the well-known contractor living at 135 East 69th st. He stated plainly that twenty different doctors had given him up to die of Consumption; that Drs. Copeland and Gardner re stored his health.
This narrative of Mrs. McCordy's is no n

markable than that given a few weeks ago by M: Charles Fredericks, the oldest photographer I New York, at 770 Broadway. Mr. Frederick states that he was cured of Lung Trouble by Dr. eland and Gardner nearly a year ago, and tha he has been a strong, sound, well man ever since In giving Mrs. McCurdy's statement exactly a she made it; word for word as she delivared it t capable of cure.
